Subject: Sample relocation request

This email is to notify you that samples from the Tower Standard project (CRL Work Orders 1509014, 1509015, 1509019) are scheduled to be relocated to ambient storage on Monday, October 2, 2017. If either of the following apply to you, please respond to me by Friday, Sept 29:

- a) You no longer require the samples to be kept and would like for them to be disposed, or
- b) You would like for the samples to remain in the cooler. In this case, please provide reason for samples to remain in the cooler.

Otherwise, if I do not receive a response from you, then I will assume sample relocation is acceptable.

Thanks!

Robert Snyder
